# 1 ESRI Australia Conservation Program

---

The ESRI Conservation Program is the non-profit support arm of the Environmental Systems Research Institute (ESRI). ESRI have helped to create and develop spatial analysis, computer mapping and geographic information system (GIS) capabilities among thousands of non-profit organisations and individual projects of all sizes and types worldwide.

ESRI Australia is pleased to offer the availability of a grant program for ESRI desktop software through the ESRI Conservation Program to non-profit organisations throughout Australia.

## 1.1 Eligibility

---

Grants are made on a case-by-case basis to any non-profit or non-government organisation working in the field of environmental conservation.

The primary eligibility criterion for a grant is the organisation's commitment to spend the time needed to learn to use the software, their financial need, and how their project will benefit the environment.

Grants are not normally made to private commercial organisations. Grants are given out on the condition that they may only be used for non-profit work and may NOT be used for private commercial work.

## 1.2 Software

---

The ESRI Conservation Program incorporates the purchase of the following ESRI desktop software only:

- ArcView 9.x Single Use and ArcGIS Extensions (ArcGIS Extensions as listed below)
- ArcPad 7.x and ArcPad Application Builder

For pricing please contact ESRI Australia Connect on **1800 447 111** or email [connect@esriaustralia.com.au](mailto:connect@esriaustralia.com.au)

## 1.3 Training

---

Training is available from ESRI Australia at the "Tertiary Student / Teacher" price for scheduled courses only (excludes ArcPad and ArcPad Application Builder). Detailed information on available courses, training schedules and course prices is available on the ESRI Australia website: [ESRI Australia - Training](#). If you require training, please download and complete the registration form available from the above website and return this with your application. Training is only offered at this special price on a 'space-available' basis and eligibility is subject to approval of your application.

## 2 How to apply

To apply for an ESRI Conservation Grant, please complete the grant application form on pages 7 - 11 and return via fax or post. If you have any questions regarding this application form or regarding any of the ESRI desktop software products please contact ESRI Australia Connect on 1800 447 111.

### 2.1 Pricing for approved Conservation Program Members

The pricing listed below is for approved conservation members only. These prices are subject to change, without notice.

Maintenance is **not included** with initial purchase of any of the software listed below. Support will be provided for 30 days from delivery of your software for issues relating to installation only.

To receive ongoing support, upgrades and other benefits of ESRI Australia's software maintenance program, you must purchase maintenance for your licenses when purchasing your software.

Product	Price	GST	Total
<b>ArcView 9.3 Core Products</b>
