OZRI 2008 Online Registration Open

Registration is now open for ESRI Australia's 22nd national client conference, OZRI 2008. To be held at the National Convention Centre in Canberra on 27-29 October, this year's OZRI will focus on the theme 'Putting knowledge into place'.

Registration is now available online at www.esriaustralia.com.au/ozri, with a \$110 discount off the standard registration fee available for delegates who register before 29 August. The registration brochure, incorporating the provisional program, is currently being finalised, and will be available in mid June.

OZRI 2008 conference sessions will explore the different ways organisations in Australia and around the world use location intelligence to work smarter and gain real benefits, while also exploring what the future holds for GIS and location intelligence.

The event will include insights into GIS technology and solution directions, interesting user presentations, an extensive trade exhibition area, and as always, great social events.

For more information about OZRI 2008, including online registration, visit www.esriaustralia.com.au/ozri, or email ozri@esriaustralia.com.au.
